- How to help young people discover and engage with the many ways God is encountering them.

## Exploring Encounter

In order to form teenage missionary disciples, we must become “architects and agents of encounter.” Most young people today are indigenous to a postmodern epistemology and come to know truth more through experience than cognitive reasoning.

Transitioning from a belief-oriented approach to an encounter focused approach is essential to reaching young people. For most teens, the entrance ramp to a personal faith is a relational encounter with God. This seminar shows us how to help facilitate both initial and ongoing encounters with God.
