TOPICS WILL INCLUDE

Mental Health

More than ever before we are experiencing a mental health crisis in our country! The truth of it is COVID has only exasperated and created more mental health issues for our young people. We will talk about seeing the signs of a young person in distress, how to react and offer first aid critical care in these types of situations, and how to walk with a young person who is suffering with mental health.

Praying with Young People

How do we really help young people develop an intentional lifelong prayer life? What are the keys in helping young people develop their rhythm of prayer? What are different tools we can teach young people to use to pray?

Breaking Open the Scriptures with Young People

How can we help young people with breaking open the word of God and finding it relevant in their own lives? Where do we begin? How do we lead young people to discover the purpose of scriptures in their own lives? What are good resources to help us break open the word of God with our youth?

Launching Pad

A time for your CORE to talk and define their gifts and be encouraged to share their gifts with the "whole body." How do we function as a CORE member, and what is our number one priority in the ministry? Building a united CORE group community that understands its vision, roles, and mandate.

The Eucharist and Our Young People

How do we walk with young people as Eucharistic people? Developing a path as we begin the Eucharistic Revival as outlined by the U.S. Conference of Catholic Bishops.

The Summit is in line with the USCCB initiative for the Eucharistic Revival, which will unfold over the next three years. This year we will be reflecting and teaching on the Real Presence of Jesus in the Eucharist, "The Summit" of our faith.
