How are parish Catholic Appeal target's determined?

It is an objective formula based on a parish's annual assessable income: Each parish is assigned a percentage, or fair share, of the overall \$5,000,000 goal as their CASC parish target. This percentage is the same percentage that their parish assessment represents compared to the overall diocesan assessment. For example, if a parish's annual diocesan assessment represents 1% of the overall diocesan assessment amount, then their CASC target will represent 1% of the \$5,000,000 overall goal.

Assessment Percentage = Parish annual assessment amount/Overall Diocesan Assessment Amount

Assessment Percentage X \$5,000,000 = **2025 Parish Catholic Appeal Target**

CASC parish targets are not assessed. The only requirement is that each parish must carry out a "good faith effort" in promoting the appeal plan. A Good Faith Effort includes Lay Witness Talk, Campaign Video, regular announcements by the pastor and weekly bulletin inserts.

Please contact with questions regarding your parish appeal target.
