MÉTODO DE OVULACIÓN BILLINGS

El Método de la Ovulación Billings® es un método simple, pero científico y natural para el manejo de la fertilidad que te enseña a reconocer los signos naturales de fertilidad del cuerpo.

¡Puro y simple! Basado en más de 50 años de investigación científica en curso, el Método de la Ovulación Billings® es una forma muy eficaz y sencilla de posponer o lograr el embarazo y controlar la salud reproductiva sin medicamentos ni dispositivos. El Método de la Ovulación Billings® puede funcionar de manera efectiva para las mujeres, ya sea que estén saliendo de los anticonceptivos hormonales, amamantando, destetando o acercándose a la menopausia. Independientemente de la situación particular, las cuatro reglas simples del método son las mismas para todos.

- A los clientes se les enseña a observar la mucosidad externa y la sensación en la vulva como biomarcadores de fertilidad.
- La sesión introductoria es una presentación general dada a un pequeño grupo en persona.
- Las sesiones de seguimiento privadas e individualizadas brindan instrucción personal sobre el uso del método, así como también una revisión completa del historial. Programado cada dos semanas durante los primeros dos meses, con revisiones de seguimiento a intervalos regulares durante el primer año.
- El profesional está disponible para un seguimiento posterior más allá del primer año, según sea necesario, y para cursos de actualización luego de un cambio en la situación de la vida (es decir, posparto, lactancia, perimenopausia, etc.)
- El profesional también está disponible para consultas entre sesiones, según sea necesario.

COUPLE TO COUPLE LEAGUE (CCL)

- An international, interfaith, non-profit organization dedicated to teaching NFP to married and engaged couples.
- This class is taught by professionally trained and certified volunteer husband and wife teams.
- Teaches the sympto-thermal method of NFP which includes mucus, temperature and cervical changes. All of these symptoms, when crosschecked, provide a woman with a very accurate interpretation of her individual cycle and a full picture of fertility awareness.
- Classes consist of 3 sessions, usually spaced one month apart. Each class lasts approximately 2 hours, 15 minutes.
- Counseling is provided by any local teaching couple or by contacting CCL central headquarters directly.
- The fee for this course is \$140, which includes:
 - Personal chart review & consulting from Teaching Couple
 - Manual: The Art of Natural Family Planning® Student Guide
 - Digital basal thermometer
 - Chart booklet
 - One-year of CCL's award-winning magazine, Family Foundations
 - Book: Fertility, Cycles & Nutrition by Marilyn M. Shannon
- Couples who have previously been through the course and have an annual membership to CCL may also attend a refresher course and transition classes for postpartum and premenopause.
- If a teacher is not available in your area, web-based classes are available. A home-study course is also available.
- Website: <http://ccli.org>

CREIGHTON MODEL FERTILITYCARE SYSTEM

- Taught by practitioners who received their education and training through a program whose professional curriculum was developed at the Creighton University School of Medicine and the Pope Paul VI Institute for the Study of Human Reproduction, Omaha, Nebraska.
- Clients are taught to observe external mucus and patterns of dryness and bleeding.
- Focuses on individual reproductive situations with medical and health emphasis.
- Assists in the diagnosis and treatment of reproductive disorders (e.g. PMS, infertility, endometriosis, repetitive miscarriage, etc.)
- The introductory session is a general presentation given to a small group and introduces single women and couples to the use of the system.
- Private, individualized follow-up sessions provide personal instruction on the use of the method, as well as complete chart review. Scheduled every 2 weeks for the first two months, and then at regular intervals throughout the first year.
- Subsequent follow-ups recommended every six to twelve months as needed.
- The practitioner is also available for consultation between sessions, as needed

CREIGHTON MODEL FERTILITYCARE MEDICAL CONSULTANTS

Medical Consultants (MC) are medical doctors, nurse practitioners, and physician assistants who have received training at the Pope Paul VI Institute for Study of Human Reproduction to incorporate into their medical practices the newly emerging science of Natural Procreative Technology (NaProTechnology). NaProTechnology refers to natural, procreative technology that works cooperatively with the procreative and gynecologic systems. It *identifies the problems* when procreative and gynecologic systems function abnormally *and cooperates* with the menstrual and fertility cycles to correct the condition and sustain the procreative potential.

THE MARQUETTE METHOD

The Marquette Method is a form of natural family planning that uses Clearblue fertility monitors to measure estrogen and LH levels directly. Daily fertility monitor readings are used to identify the fertile window. Marquette tracks the hormone levels directly (through urine tests), rather than tracking the symptoms of hormone fluctuations (cervical mucus and basal body temperature) throughout the cycle, though mucus and temperature observations can be used as well. This method was designed for those in regular cycles, irregular cycles, and postpartum cycles.

How to find a class

To sign up for an online class in the Marquette Method in English or Spanish, you can contact an instructor through Whole Mission: Marquette Method Natural Family Planning Services at mmnfp.com.

SYMPTOPRO FERTILITY EDUCATION

SymptoPro™ Fertility Education is an effective, scientifically based method of Natural Family Planning that treats fertility as a normal, healthy process. With over 30 years of experience, our Sympto-Thermal Method of Fertility Education is based on changes in a woman's cervical mucus, waking or resting temperature, and cervix. These observable signs change in response to the hormones of the menstrual cycle. It only takes seconds a day for a woman to track her fertility; then the couple interprets the chart and makes a decision based on their family planning intention. SymptoPro™ can be used effectively throughout a woman's entire reproductive life. Regular cycles are NOT required. Each class series consists of three two-hour sessions that meet over the course of one month with personalized follow-up. A fourth private follow up is also scheduled one month after the final session, followed by on-going chart review for the first 4-6 cycles.

Certified SymptoPro Instructor

Emma Goff

2026 NATURAL FAMILY PLANNING INTRODUCTORY SESSIONS

Please note this is not a comprehensive list of all natural family planning sessions. New dates will continue to be added throughout the year. This also does not include information for all methods, but only includes those dates that were reported. Natural family planning instruction is available throughout all areas of the Diocese.

Spanish and Long distance instruction are also available. Please visit charlestdiocese.org/marriage/natural-family-planning or contact Janelle Florendo, Diocesan NFP Coordinator, for more information (jflorendo@charlestdiocese.org)
